

THE COMING BOOM.

The Virginia Report publishes the following which only corroborates rumors which have been floating around this city for some time: Lately returned Virginians from San Francisco say that the late rise in Ophir was caused by the rumor there that Flood was going to Europe, and that Senator Jones was to take the helm and steer the biggest boom seen afloat in many years. There is also another rumor which finds credence among many that Hobart and his people will make a drive to get the control of Savage at the next election, which will be in July, we believe.

Still another rumor is to the effect that the Chollar and Potosi folks have partly developed a great deal of ore. They have not crosscutted at all, but everything is so arranged that they can start in crosscutting in several places at once and in very short order reveal enough ore to insure a long line of dividends and a boom in the stock.

In confirmation of these rumors the facts are pointed to that Senator Jones and Mackay and Hobart are very much together, and the important works which the several parties are conducting plainly indicate a combination. And last, but not least, the great, all-absorbing inquiry in San Francisco of all visiting Virginians is, "When are they going to commence crosscutting in Chollar and Potosi?" Piles of letters and telegrams are received here daily asking that question, and will undoubtedly be the signal for the launching of the boom.

Here goes for another rumor:

There was a powerful syndicate formed not long ago to put things on their feet on the old lode, says rumor and things went along quite swimmingly until it was ascertained that all the wealth that the syndicate was making by the boom in stocks was represented by the "promises to pay" of bearing brokers. Of course, if the promises to pay were accepted as good, it was only a question of time for them to be in fact good, for, as sure as anything that goes up is bound to come down again stocks are bound to get back to the starting point. The syndicate, realizing the fact that they never could realize a cent from the fictitious and fabulous wealth they were making, commenced to can on the brokers for a settlement, and the result was as they should have known on the start, that the brokers didn't have the money, and then followed the failures with which we are all but too well acquainted. The purpose for which the syndicate had been formed had failed—failed flat, and the syndicate was no better off than when formed. The brokers had failed dishonestly, and retained every dollar they were reputed to be worth before the stock movement. Even Bob Morrow, whom no man doubts but that he was able to pay dollar for dollar, pleaded the "baby act" and refused to pay. The result of the operations of the syndicate causes an estrangement among some of the members, and it virtually fell to pieces. Then followed the decline in stocks. Of course there was enough adhesion and sympathy left among the large holders to keep the market at a respectable figure. But now the rumor is that the syndicate has been reformed, and that it is composed of none but old hands and it is their intention to put the lode on its feet and start up operations on a gigantic scale. That preparations are going on to do so, of course is plainly to be seen. Every one here knows there is plenty of ore in the Con-Cal-Va, Chollar, Potosi, Crown Point and many other mines upon which the mills can run and give a fair return profit long after the stock deal which is bound to ensue shall have passed into history.

Now our local operators can speculate on these rumors. When the boom is inaugurated they may take their chances of realizing before its collapse. It all depends on the style in which its done. You will all have a chance, and if you think you can beat the game, sail in, rocks.

"AN 'APPEAL' SENSATION."

Ex-Warden Bell has published a statement concerning his management of the State Prison which

shows that the APPEAL's charge of mismanagement was only one of that paper's sensations.—News Reporter.

If the editor of the Reporter will come up here some day and compare the letter of recommendation which Bell alleged the Commissioners gave him, with the letter the Commissioners actually did write the scold which now incrust his eyes will fall.

Whenever the APPEAL finds a State official misconducting his office it makes no bones of saying so. Dismissing charges of this kind as "only an APPEAL sensation" is a happy way that certain parties have of trying to convince the public that they are all right. These parties deceive no one but themselves, however.
